DISBURSEMENT OF RED CROSS FUNDS

John L. Clymer, director of the Pacific division of the Red Cross, replying to an inquiry as to the cost of administering the funds of the Red Cross writes the Bonanza as follows:

"All expenditures made for administrative purposes are audited by the war department and published each year for the benefit of the public. The national report of the Red Cross for the year 1916 is obtainable upon application to national headquarters. The general policy of the society provides that membership dues shall cover administrative expenses and special contributions that are made as a result of special appeals in times of disaster, such as the special \$100,000,000 fund, go in full for actual relief purposes unless necessity forces us to utilize 5 per cent of this in order to adequately expend the money. The \$25 and the \$100 memberships go to increase an endowment fund which is now approximately \$2,000,000, the interest only of which is used in times of disaster in the United States.

"The administration of the Pacific division office, which has jurisdiction over the territory of Alaska and the states of Washington, Oregon, California, Nevada and Arizona, will cost approximately \$12,000 for the fiscal year ending April 1, 1918. During this time we have secured nearly 300,000 members and raised for the war fund drive approximately \$9,000,000. It will readily be seen that the overhead is a very small percentage of the money received.

"Very truly yours,
"JOHN L. CLYMER,
"Director Pacific Division."

SHAPE OF THE HAND.

The Reason Our Fingers Are Not All of the Same Length.

There is no known reason why our fingers should be of different lengths today. In fact it is thought by some people that the hand would be stronger if the fingers were all of the same length, says the Book of Wonders. Certainly, however, the hands would not then be so beautiful and might not be so useful.

The human hand today is perhaps the most versatile thing in the world. You can do more things with the hand than with any other thing in the world. The probability is that the shape of the hand today and the length of the fingers are the result of the different things the human being has called upon the hand to do during man's development up to the present time.

We must go back to the time, however, when man walked on fours, for that is probably the real explanation. Originally man's fingers were of different lengths because all four footed animals had the same peculiarities. The shape and length of the toes and their arrangement were the ideal arrangement for giving the proper balance and support to the body and in moving about and in climbing produced the best toe hold.

WHERE THE MULE FAILS.

He Doesn't Relish a Battle When the Artillery Gets Active.

More nearly impervious to heat than any of the other domestic animals, including his own ancestor, the mule has played a prominent part in the development of our southern states. On the sugar plantations and in the cotton fields he is without a peer.

His traditional endurance renders him almost invaluable to the quartermaster's department of armies in the field, but the experienced artillery officer uses horses instead for handling artillery in action.

A mule doesn't enjoy a battle. He doesn't relish its excitement and its terror, that methemorphosis that changes men alternately into poltroons and demigods.

Under a sustained artillery fire a horse becomes unusually docile. He turns instinctively to his master as to a creature of higher power, and his very terror renders him gentle.

But the mule displays no such faith in humankind. In the turmoil of battle he suddenly becomes arbiter of his own acts, and he either bolts or balks. A mule disapproves all that he does not understand, and it is traditional that he is not amenable to reason.—Los Angeles Times.

FLUNKIES NOT ALLOWED AT THE TRAINING CAMPS

(By Associated Press.) PLATTSBURG, N. Y., Aug. 27.—Automobiles, horses and valets were forbidden candidates at the officers' training camps in an order from Secretary Baker.

REGULAR MEETING T. A. R.

The regular weekly meeting of the T. A. R. has been changed from Monday to Tuesday afternoons at 2 o'clock at the barracks on Main street. Under the new order the first meeting will be held tomorrow.

NEW TODAY

University of Nevada

DRAFT OFFICIALS ARE IN THE AIR

The local draft board is completely at sea regarding the number of men who will be summoned on the first call on the fifth of September. The first notice said 30 per cent would be required and this was recalled and no other order substituted. According to telegraph advices only five per cent of the total of 75, or four men will be summoned next week. The medical examinations continue and a few delinquents are coming in every day. Many of them are from other registration centers and are merely taking their examinations here by authorization of their home boards.

MAKES 3000 MILES WITHOUT AN ACCIDENT

Col. Jules Smith, manager of the Butler theater, motored in last evening from Tahoe after completing a 3000-mile journey in six weeks without once opening his tool kit except to fix up a puncture. The trip from Tahoe was made in exactly fourteen hours, the party leaving the lake at 4 a. m. and landing here at 6 o'clock. The time would have been much better had it not been for the road between here and Mina which Jules says was ten times worse than any section he encountered on the entire journey.

Jules Smith and Jimmy Jones, the Richmond real estate dealer, two old desert rats, are proud of the fact they hold the record catch of trout on the lake which they secured to the astonishment of their Indian guides.

FORECAST FOR THE WEEK

Rocky mountain and plateau regions: During the week the weather will be generally fair with moderate temperature.

PERSONAL

MRS. S. C. WEBBER, mother of Mrs. E. D. Mills, was an arrival from Schuyler, Neb., Saturday for a visit with her daughter.

MRS. JOHN NICOL was able to sit up for a few minutes yesterday for the first time in a month and speedy convalescence is looked for.

TOM A. WILLIAMS, representing the Pacific Mill and Mine Supply company of San Francisco, arrived by auto last evening from Mina.

FRED CORKILL, a former superintendent of the West End Mining company, accompanied by W. G. Luckhart, arrived by auto from Oakland yesterday afternoon.

GEORGE H. HELM, oldest son of Mrs. Frank Pittman, was a passenger this morning for Sacramento where he goes to visit his grandmother.

AL FREVERT and W. W. Booth motored to Chinabur City yesterday, twelve miles northeast of Mina and returned in the evening. They report great activity in the mining of quicksilver.

JULES SMITH, manager of the Butler theater, accompanied by his wife and little Jules, returned last evening from a month's outing in California and around Tahoe. James McVeigh, the little usher, was also in the party.

F. G. MECHNER, who came to Tonopah sixteen years and established the Vienna bakery, is back for a visit from Hollywood, Cal., where he makes his home. Mr. Mechner left Tonopah seven years ago and will remain about a week looking over old scenes.

MISS EVELYN COLLINS, who has been visiting in San Francisco during the past month, returned to Tonopah this morning having been summoned by wire owing to the serious illness of her father, W. H. Collins, who is confined to his home with typhoid fever. This afternoon he was reported somewhat improved.

P. S. BOOTH, auditor of the Tonopah Extension Mining company and secretary of the White Caps Mining company, accompanied by his wife left by yesterday morning's train for Mina at which place they were compelled by a breakdown a week ago to leave their auto. The repairs having been made they returned by machine to Tonopah in the afternoon.

ADVENTUROUS BURRO COMES TO INGLOUS ENDING

Chief of Police Jack Grant was called on yesterday to end the sufferings of a burro owned by George Beckley which came to his Waterloo in front of the West End shaft. The burro fell into a vault near the Raycraft house on Saturday morning and was rescued by the police after a valiant struggle. Then the beast was turned loose but it is supposed that he suffered internal injuries for he was found dying on the vacant West End lot Sunday morning and was shot to relieve his agony.

Will Kerensky be able to keep the Moujiks in the trenches until after Christmas?—Los Angeles Times.

AMUSEMENTS

BUTLER THEATER

Of all the famous actresses in England, Miss Peggy Hyland, the charming little star of "Babette," and other successes, was chosen to play the star part of "Caste," the feature play at the Butler tonight. In selecting her for this part the Greater Vitaphone company not only paid her a personal tribute, but enabled her to realize an ambition, that of playing opposite to Sir John Hare, England's greatest character actor and most beloved artist. Sir John Hare has won fame as Eccles, as the good natured old reprobate of the Robertson satire on English class pride, and Miss Hyland, who was born in England, has won fame as an American screen leading woman. It is considered a great tribute to her ability as an actress that she should have been picked from all other women to appear in the classic production. With this feature will be seen Pathe Weekly. Tomorrow: "Marie Doro in 'Castles for Two.' Wednesday: "Beware of Strangers." It is a story that the moral thrust drives home the lesson of vigilance. You cannot afford to miss it. It will not come back again. In the future the first show will start at 7 instead of 7:15.

KIDIE JITNEY BENEFIT DANCE

The kiddies' swimming pool is going to have a jitney dance benefit next Wednesday night at the Air-dome when the committee charged with the construction hopes to see the house filled with an appreciative audience whose presence will add another hundred dollars to the fund. This will be on Wednesday, August 28th, a date that should be remembered by everybody who loves to see the little ones have a good time with the only public swimming pool in the state.

Capt. Balliet completed pouring the last bucket of concrete on the walls this morning but will not remove the forms for at least three days when they will be taken out and work begun on the floor.

NYS COUNTY NORMAL SCHOOL PREPARES TO TEACH

The entire community knows of the good work done by the normal training school in Tonopah last year. That work will surely continue if only there are pupils enough, beginning within a few weeks from now.

Any young man or woman interested in preparing to teach may communicate immediately with Supt. George L. Dilworth of the Tonopah schools.

SPEEDER ORDERED TO VIEW REMAINS

(By Associated Press.) SAN FRANCISCO, Aug. 27.—Police Judge Brady sentenced a man convicted of speeding to view the mangled remains of two children killed Saturday by another speeder. "The sight of those poor little victims will cure you of speed mania," he said.

Wonderful Soda-- That's what they all say

—and why wouldn't they say it? It certainly is the most wonderful soda we have ever seen, and probably the very best soda that can be produced today. That is the reason. First, purity of ingredients, then careful manipulation, then a sanitary fountain and the cleanest and neatest service. That's what makes it good. That should appeal to you, and induce you to meet and treat at our fountain, now and for the balance of the summer. Any flavor you want, all the old-timers, and the newest ones.

TAKEN WITH APPENDICITIS

Mrs. James Serravalle who was married last week and was called to Reno on a business matter returned yesterday morning and was seized with an attack of appendicitis that compelled her immediate removal to the county hospital where she will remain as a private patient.

EVILS OF OVERFEEDING.

A Good Rule For Many Would Be "Eat Less and Exercise More."

The sin of gluttony is common, and therefore much condoned, but like every other violation of nature's laws has a penalty. Fat inefficiency, sluggish mentality, the reddened nose, the plumped face, certain of the chronic skin eruptions and much fatigue and nervousness are due to the abuse of the digestive apparatus. Rich, indigestible foods in large quantities, highly seasoned to stimulate the jaded palate, are forced into a body already rebellious from repletion. Exercise is largely limited to walking to and from the table, and bodily deterioration proceeds rapidly.

Many an overfed dyspeptic, suddenly dragged by the stern hand of circumstances from a life of physical ease and plenty and forced to work out of doors, suddenly discovers that his semi-invalidism has gone, that a chronic skin derangement of many years standing has disappeared and that a new vigor and zest of life has been given him.

Not every one can spend his whole time in the open air, but a certain amount of exercise and plain, wholesome food in an amount not exceeding the body's needs can be had by almost every one. Simple moderate diet and exercise make for health. These are not faddish food theories, they are just plain common sense.—Exchange.

Slow Game.

Madge—Was George fooling while you were playing golf? Marjorie—Gracious, I hope not! Why, I accepted him.

Water Lilies.

Water lilies have a shining appearance because of an oil on the leaves which prevents water remaining on them and clogging the mouths or stomachs, through which the plant breathes. The leaves are large, flat and nearly round.

The Restorative.

"How's your wife's cold this morning?" asked a neighbor.
"Much better, thank you. There's a lance tomorrow evening that she wants to go to."

A Faint and a Faint.

Sadie—Did you ever faint? Susie—Once. But I bumped my head so hard that I fainted really and truly, and I've never tried it again.
